Accreditation Statement

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint providership of Blackwell Futura Media Services and California Society of Dermatology & Dermatologic Surgery. Blackwell Futura Media Services is accredited by the ACCME to provide continuing medical education for physicians

Designation Statement

Blackwell Futura Media Services designates this live activity for a maximum of 13.5 AMA PRA Category 1 Credits. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Statement of Learning Objectives

As participants of this CME activity, learners will:

- Refine approaches to the diagnosis and treatment of select dermatologic diseases based upon current evidence-based data.
- Recognize and identify key factors in the diagnosis of drug reaction with eosinophilia and systemic symptoms and the steps taken in management
- Understand the impact of systemic anticoagulants on patients' health and their management in cutaneous surgery.
- Learn the latest advances and techniques in the use of neurotoxins.

- Understand the latest advances in acne pathogenesis and its management choices
- Strengthen the ability to manage medical errors that occur in the office setting and how best to anticipate and manage their impact
- Understand the most current updates and impact of medical billing and coding.
- Review and understand the essentials of malpractice defense and proper informed consent
- Understand the role of botanicals and their use in skin therapeutics
- Learn and review the evaluation and management of the patient with pruritus
- Focus upon precise histopathologic diagnostic techniques through interactive and didactic teaching sessions.
- Integrate new and effective diagnostic, therapeutic and surgical advances to treating pediatric patients.
- Review and understand the evaluation and management of hidradenitis suppurativa
- Learn and review the intricacies of challenging cases in dermatopathology
- Understand how to evaluate and prepare patients for therapy with biologic modifiers.
